Professional Summary

Full Stack Web Developer with 4+ years of experience delivering responsive websites, e-commerce platforms, and scalable web applications using JavaScript, React, and Node.js. Specialized in payment gateway integration (Paystack), API development, and performance optimization. Proven ability to deliver client-ready solutions in remote, fast-paced, and commission-driven environments. Available for remote/on-site, full-time/part-time, and commission-based roles.

Technical Skills

- Languages:** JavaScript, HTML5, CSS3, PHP, Python, Node.js
- Frameworks & Libraries:** React.js, Express.js, jQuery, TailwindCSS, Bootstrap, Sass, GSAP, Framer Motion.
- Databases & ORMs:** MongoDB, MySQL.
- Tools & Platforms:** Git/GitHub, WordPress, Figma, Framer, RESTful APIs, Paystack API, Google Maps API, Node Package Manager, Postman, VSCode, Command Line Interface (CLI), Stack Overflow, Slack.
- Concepts:** JWT Authentication, Responsive Web Design, SPAs, PWAs, SEO, Performance Optimization, Debugging, Cross-Browser Compatibility.

Professional Experience

Freelance Full Stack Developer (Remote)

Sept 2021 - Present

- Delivered 15+ client projects across e-commerce, real estate, and service industries, meeting business and user requirements
- Built full-stack applications using MERN stack with secure Paystack payment integration, improving transaction reliability
- Developed mobile-first, SEO-optimized websites that enhanced user engagement and conversion rates
- Integrated RESTful APIs and third-party services to extend application functionality
- Collaborated with designers and stakeholders to translate business needs into scalable solutions
- Optimized and maintained existing systems, improving load speed and overall performance
- Refactored legacy applications into modern React architectures, increasing maintainability by up to 50%

Frontend Web Development Tutor - Kodex Africa (Awka)

Sept 2023 - Jan 2024

- Delivered structured training in frontend web development, covering HTML5, CSS3, JavaScript, and introductory React concepts.
- Mentored and guided 15+ beginner developers through hands-on projects, improving their practical coding and problem-solving skills.
- Designed and facilitated coding exercises, assignments, and 4+ real-world mini-projects to reinforce learning outcomes.
- Introduced students to modern web development tools, workflows, and version control using Git/GitHub, Bootstrap, TailwindCSS, jQuery, SASS, React, and Redux.
- Provided code reviews and constructive feedback to improve code quality, readability, and best practices.
- Supported students in building responsive, user-friendly web interfaces following industry standards
- Simplified complex technical concepts, improving student engagement and learning retention.

Contract Web Developer - SYNCTECH (Remote)

Jun 2022 - August 2023

- Developed custom websites and landing pages for international clients (UK, Canada, Africa).
- Built responsive UI components and ensured cross-browser compatibility.
- Implemented CMS-based and custom solutions depending on client needs.
- Delivered projects within tight timelines in performance-driven environments.

Frontend Developer - HNG Internship (3-month remote internship)

Jun 2020 – Aug 2020

- Developed reusable and scalable UI components using React.js
- Built responsive interfaces for an e-commerce platform, ensuring usability across devices
- Integrated APIs and implemented best practices for performance and cross-browser compatibility
- Collaborated with frontend and backend teams to deliver production-ready features
